BUILT THOUGHTFULLY

HARDWARE & DESIGN

BUILT TO BE NOTICED

Every hardware decision, the integrated display, the gravity roller shelves, the slim profile, was made for locations where the machine has to hold its own in the space.

FEATURE 01 GRAVITY Every shelf uses a gravity-fed roller system with front-facing pushers. Products stay visible, accessible, and forward-facing at all times no staff intervention needed.	FEATURE 02 DISPLAY The 24.7" LCD (1920x607, 75Hz) is structural and not bolted on. It runs branded content continuously. Operators upload material directly through the VMS.	FEATURE 03 ENERGY Low-E glass and an automatic door close mechanism protect refrigeration efficiency in high-traffic locations where the door opens frequently throughout the day.	FEATURE 04 SLIM At 28.94" wide, Apex moves through standard doorframes without disassembly. No crew, no equipment, no site preparation required on delivery day.

WHY OPERATORS CHOOSE APEX

Commands Premium Locations The integrated display, large capacity, and wide temperature range make Apex the right machine for lobbies, flagship gyms, and corporate entrances where presence matters.	Expands What You Can Sell The 32-77°F range opens categories standard refrigerated units cannot carry. Fresh grab-and-go meals, dairy, and ambient snacks sit alongside beverages in one machine.
Runs with Less Intervention Gravity roller shelves keep presentation consistent. The AI handles restocking timing. The VMS handles pricing and reporting. Apex manages itself between visits.	Gets Smarter Over Time Unlike a traditional machine that performs exactly the same on day one as year three, Apex improves. The AI learns the location's patterns and sharpens recommendations.

- CONNECTIVITY
- CELLULAR
- PAYMENTS
- NFC TAP-TO-PAY

Vendera

THE AI PLATFORM

INTELLIGENCE BUILT IN

INDUSTRY-LEADING AI

Every transaction across each Vendera machine feeds one continuously learning AI. Apex doesn't just work at its location, it also gets smarter.

Our proprietary AI software is like no other, analyzing and managing every transaction with ease, minimizing the need for human intervention

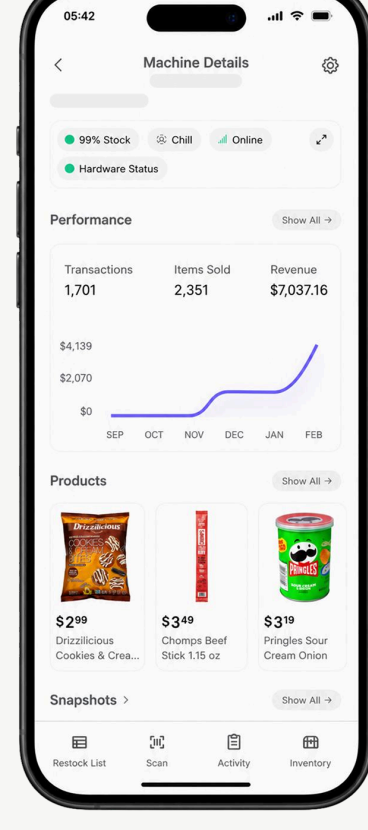

CAPABILITY 01 Knows What to Stock Analytics in the VMS app track top-selling products in real time, helping operators optimize inventory decisions and stock what customers actually buy.	CAPABILITY 02 Knows When to Restock Alerts are based on real-time sales, not a fixed schedule. You go when it actually needs you not before, not after stock runs out.
CAPABILITY 03 Records Everything Every transaction is logged on video in real time, giving you inventory visibility and a complete sales history from any device, anywhere.	CAPABILITY 04 Update Pricing in Seconds Modify prices across your entire fleet from your phone. One dashboard for sales, inventory and alerts from the Vendera VMS app.

VENDERA VMS APP

- Manage Smarter with our Proprietary VMS**
Control of your fleet that fits right in your pocket. Our proprietary VMS app enhances the efficiency and effectiveness of your operation. Check in on your machine, quickly prepare for re-stock, maximize product placement and availability based on real time analytics, and check on the connectivity status of each machine. The VMS also allows you to upload images straight to the Apex LCD screen, giving you and your customers marketing capability.

\$7,037 Real revenue from a live smart cooler:
1,701 transactions. 2,351 items sold. One machine. Six months from zero, managed entirely from the VMS app on a phone.

1,701 Total transactions recorded from a single active unit	VISIBILITY Stock level visible in real time. Operator alerted before products run out.
2,351 Items sold and tracked automatically by AI without human intervention.	ONLINE Easily access real-time data including connectivity status, transactions, and stock levels.

Vendera

ABOUT VENDERA

WHO WE ARE

POWERING THE FUTURE OF UNATTENDED RETAIL

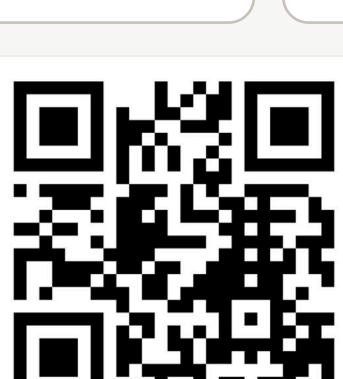

Vendera builds AI-powered smart coolers that run themselves, minimizing staffing and operating costs, and maximizing revenue. Our machines learn, adapt, and improve over time.

Our fully-integrated VMS system allows you to add a mix of our high-performing coolers. Whether you're deploying, Core, Apex, Atlas, or Arctic, manage your entire fleet in one place, using the same platform and dashboard.

AI-FIRST 99.5% accuracy. AI identifies every item, every transaction regardless of lighting, motion, or product type. It just works.	ZERO FRICTION Tap. Grab. Go. The simplest buying experience in the unattended retail, proven to drive 2-3x more spend per visit than a traditional machine.	RESEARCH BACKED Proven intelligence. Vendera technology is validated by experts from elite universities. Our innovation is built on science, not hype.
